LISBON
Contemporary Series

 **acrospire**
Products Ltd

Lisbon is the new frontier of lighting design for the city, its citizens and spaces. An innovative product in quality and shape, with a design that breaks away from the most popular examples currently on the market and that blends perfectly into any urban scenario, whether historic or contemporary, as well as in green spaces and pedestrian or vehicle traffic areas.

Features

- Housing and frame pressed in die-cast aluminium with very small surface area to wind.
- Cooling fins integrated into cover
- Complete with quick connection
- Automatic temperature control with automatic resetting
- PMMA optics with high resistance to temperature and UV rays

Product Specification

Electrical Class : Class 2

IP Rating : IP67

IK rating: IK09

Certification: ENEC Certified

Lighting

Light Source: LED

CCT: 2700K - 5000K

Colour Rendering: >70

L90: 100,000 Hours (at 25 deg C Tq)

Power and Control

Nominal Voltage: 230V - 50Hz

Surge Protection: 10kV Standard

Driver: Stand alone and remote dimming protocols (DALI)

Mechanical and Installation

Body: Die-cast aluminium

Optics: PMMA

Diffuser: 4mm Tempered Glass

Finish: Bi-component UV-stabilised acrylic coating

Operating Temp: -20 degs C to +40 degs C
