

# Corvia Bulkhead

Tough on the outside with a sleek silhouette, the Corvia Bulkhead is made for environments where performance and durability matter. With a sculpted triangular shape, it offers a robust lighting solution for residential, campus, rail infrastructure, and multi-storey car parks. The heavy-duty die-cast aluminium body and high-impact polycarbonate diffuser provide IK10++ and IP65 protection, while the sloping profile helps prevent wildlife from nesting or roosting.

- Available in three sizes, 320, 260, 130
- Vandal-resistant IK10++ design
- Low flicker adjustable LED driver
- Replaceable LEDs
- Suitable for rear and side cable entry
- Suitable for BESA mounting for conduit applications
- Various colour and light output options

## Applications

Residential

Campus

Rail

Car Parks

## Bulkhead Luminaire Specification

- Anti-vandal illuminated bulkhead luminaire
- Ideal for communal areas, stairwells, underpasses, and car parks which require robust luminaires

## Colour Temperature

- 320/260/140: 3000K or 4000K
- 320 Asymmetric: 4000K

## Electrical Specification

- Output Power (Watts): 13-28
- Electrical Class: Class 1

## Certification

- CE, UKCA

## Mounting

- Suitable for rear and side cable entry
- Suitable for BESA mounting for conduit applications

## Materials

- Body: Die-cast aluminium
- Glazing: 3mm opal polycarbonate

## Lumen Range (Lumens)

- 585-3,600

## Colour Rendering Index

- 80Ra

## Max Luminaire Efficacy

- <143lm/W

## Control

- Integral emergency
- Pre-programmable driver option
- 3-hour emergency
- Photocell

## Finish

- Polyester powder coat

## Colour

- Anthracite grey finish as standard
- Other RAL colours on request

## Operating Temperature

- -30°C to +50°C

## Warranty

- 5 years (standard)

## Durability

- IP65 Ingress Protection
- IK10++ Impact Resistance
